

Product name: **Alafosfalin**
Molecular formula: $C_5H_{13}N_2O_4P$
Molecular weight: 196
CAS-number: 60668-24-8
Assay: > 90% (HPLC)
Producer: synthetic

Storage temp.: +4°C

References: Hassall, C.H.; *In Antibiotics*, Vol 6, pp.1-11, Springer (1983)

Comments: alanine analogue

Biological activity: antibacterial, alanine antagonist, inhibitor of murein biosynthesis

Structure:
