

Product name: **Tetracenomycin C**
Molecular Formula: $C_{23}H_{20}O_{11}$
Molecular weight: 472,404
CAS-Number: 71135-22-3
Assay: minimum 90% (HPLC)
Producer: *Streptomyces glaucescens*

Storage Temp.: -20°C

Literature References:

Comments: Anthracycline antibiotic

Biochemical/physiological actions:
Antibacterial

Chemical properties: Soluable in DMSO

Structure:
