

Product name: **Gallidermin**
Molecular formula: $C_{98}H_{141}N_{25}O_{23}S_4$
Molecular weight: 2165.61
CAS-number: 117978-77-5
Assay: minimum 90% (HPLC)
Producer: *Staphylococcus gallinarum*

Storage temp.: +4°C

References: Kellner et al.; Eur. J. Biochem. 177, 53-59 (1988)

Comments: Lantibiotic, polypeptide antibiotic

Biological activity: antibacterial, highly active against *Propionibacterium acnes*

Structure:
