

Product name: **Ferricrocin**

Molecular formula: $C_{28}H_{44}FeN_9O_{13}$

Molecular weight: 770.555

CAS-number: 23086-46-6

Assay: >90% (HPLC)

Producer: *Aspergillus viridi-nutans*

Storage temp.: -20°C

References: Keller-Schierlein, W. et al.; Fortschr. Chem. Org. Naturst. 22, 279 (1964)

Comments: trihydroxamat-type siderophor

Biological activity: iron chelator, Fe^{3+} charged

Structure:
